### **SDC Enterprises Independent Proficiency Testing Scheme**

SDC Enterprises will provide sample packs of standard test materials and test fabrics, covering colour fastness and physical testing, for testing and grading by commercial and factory laboratories. Results and samples will then be returned to SDCE for analysis, and the benchmarked results will be reported back to the lab (all other lab results will be anonymous). Certificates of performance, for reporting to retail customers or internal management procedures, will be available, free of charge, for all test undertaken.

Annual Registration Fee:     £200

Participation Fee, per Test\*     £50

\*Based on 3 – 5 test, 4 times per year. Participants will have the choice which range of tests they wish to participate in.

Post and packing will be an additional cost for the test packs, but where possible local partners will be used to minimise the cost.

**Please quote SDC Enterprises product code when placing orders.**

**Prices quoted are FCA at SDC Enterprises and governed by “Incoterms 2010”. Please note an administration charge will be made on orders specifying own transport.**

**Please allow 3 days for UK deliveries, or the despatch of overseas orders (following receipt of payment in full).**

**Prices are subject to Terms and Conditions.**
